# ***2008 North Carolina Angus Field Day***

The 2008 North Carolina Angus Field Day Event will be held on Saturday, September 13 at Primus Genetics in Millers Creek. The theme this year is "Improving the Bottom Line for Angus Producers". Fall is always a beautiful time to visit the North Carolina mountains, so plan to join us there.

Lunch will be served, so please give the office a phone call or send an email and get your name on the list. We need to know how many will be attending to plan the meal. Please let us know by September 7th. There is a Hampton Inn, Holiday Inn and several other motels in the area, if you plan to spend the night.

We have three very well qualified experts that will take part in a panel discussion on improving the bottom line. Our host Leonard W. Fussell, DVM, owner of Primus Genetics will be one of the panel members. Marcus Harward, who runs the Livestock Markets in Turnersburg, in Iredell County and the Norwood market in Stanley County, will be there to share his vast marketing experience with us. Joe Hampton had been scheduled as our third speaker, but has a CAB meeting that week end, so we will have Dave Gazda our regional representative from American Angus as the third speaker. T.W. Wall of Highlands Farm will be the mediator.

Primus Genetics is located in Millers Creek, which is north of Wilkesboro. From Wilkesboro, turn North on Hwy 16 and go 6.6 miles, take a right on Old Hwy 16 and go 2.2 miles to Vannoy Road. Turn right on Vannoy Road and the farm is the first place on the right.

Start making your plans for a day with good friends, good food and learn how to improve your Angus business too! Watch [www.ncangus.org](http://www.ncangus.org) for more details as they become available.

We look forward to seeing you at the North Carolina Angus Association 2008 Field Day!
